Testimonials

"We acted as contract administrator for an external repair and maintenance contract where Return Property Services were the main contractor. The building was a block of flats in Clapham. Return Property Services completed the specified works to good standard and importantly know the importance of communication during the contract which helped them provide a great result."

Dorian Smith MRICS MFPWS AaPS
Co-founder and Director at Maurice Fitz George Surveyors

"LBB have worked with Return Property Services for a number of years and undertaken many major works maintenance and repair projects with them, ranging in value from 30k through to 500k. All the projects have been delivered to a satisfactory standard every time. We find their communication, site management, health and safety and quality of work excellent on each project and would not hesitate to recommend them."

Iain Pendle BSc (Hons) MRICS
Director at LBB Chartered Surveyors

"Return have successfully completed an external works project in St. John's Wood. The Contract went smoothly and our clients were extremely happy with the quality of the workmanship and the way the project was managed on-site. Return have just been instructed on another project in Lambeth and these works will be commencing shortly. Due to the professional way in which Return operate, both on-site and administratively, they are now regularly requested by Berrys to tender for various works for our clients."

John Rivett BSc (Hons) MRICS
Director at Berrys Chartered Surveyors

"I have worked with Return Property Services for five years and find them to be professional and easy to work with. The quality is to a high standard and I wouldn't hesitate to recommend them for future projects"

Sam Crowe MRICS
Director of Building Surveying at OCR Surveying

"I have used the services of Return Property Services to undertake repairs and redecoration to the exterior and interiors of a block of flats we manage over a period of circa ten years. The contracts have been awarded after a tendering process and normally on the basis of the most competitive price, but also taking into account the ability of the chosen builder to complete the works within time and to a suitable standard. I have found Return to be competitive, but also competent and responsive to changing circumstances. While we are all only as good as the next job I have no hesitation in confirming that my dealings with Return have always been professional and have produced successful results."

Tim Stevenson FRICS
Director at Hillgate Property Management

"Philip Pank Partnership working as Employer's Agent for the London Borough of Hillingdon on a part demolition, part refurbishment and part new build scheme of four houses. Return Property Services provided an excellent service during what was a challenging scheme dealing with properties affected by significant fire damage. As the design and build contractor Return Property Services delivered first-class units resolving any issues professionally and promptly. We thank Christian and the team and look forward to working on future projects together."

Will Galvin MSc FRICS MCI Arb MAPM
Employers Agent, Philip Pank Partnership

"Return have always been professional & courteous in their approach and a reliable contractor for meeting project deadlines and required high workmanship standards."

Mark Richardson BSc (Hons) MRICS,
Managing Director at RichardsonGreenyer Chartered Surveyors
